**GO DIGITAL !**  
**GO COLBY DIGITAL !!**

Colby FlexCam™ unobtrusively takes color video of all passengers faces at ticketing, boarding counters, aircraft entry & exit doors or any other desired location. All images are recorded on Colby DVR for short and long term retention.

Colby ID Scanner™ takes color video of ID's or passports together with facial videos which are recorded on Colby DVR.

Colby Digital Video Recorder™ DVR-2002 records 30 fps for 200 hours and holds networkable facial recognition software.
